PORTABLE DANCE FLOOR

SICO's STARLIGHT II
PORTABLE DANCE FLOOR

SICO's ORIGINAL
PORTABLE DANCE FLOOR

Founded in 1951, the SICO name is synonymous with superior craftsmanship, outstanding durability and world-class recognition. SICO invented the professional portable dance floor and continues as the leading manufacturer of dance floors worldwide. SICO's global presence in the marketplace speaks for itself. The detailed engineering and superior manufacturing that goes into every dance floor is supported by excellent customer service that has made SICO the world leader in quality, design and service.

SICO CAM-LAM®
PORTABLE DANCE FLOOR

SICO's CAM-LAM® PORTABLE DANCE FLOOR combines the beauty of wood with the permanence of laminate. The continuous planking design provides a beautiful floor that will enhance your décor.

- CAM-LAM's® larger panels mean fewer pieces to handle and lift during set-ups compared to conventional size panels. Set-up time can be reduced in half.
- Fewer panels mean less storage space. Panels are 4 foot squares (122cm squares), or 16 sq. ft. (1.5 sq. m) almost twice the area compared to 3 foot squares (91cm squares) or 9 sq. ft (.84 sq. m).
- CAM-LAM's maintenance free flooring-grade laminate surface requires no refinishing, saving time and money.
- SICO's lower profile floor allows easier access and egress, at only 3/4" (2cm). Visi-Trim edging provides a modest 11° slope to every floor.
- This revolutionary new floor reduces chipping and fading associated with many other dance floors.
- The new precision tongue and groove design allows CAM-LAM® panels to easily be assembled and disassembled.
- 100% floor contact provides both a stronger and more durable panel.
- The Cam-Lock reliable positive locking system is not dependent upon magnets, screws or gravity to keep panels interlocked, creating a strong, reliable locking system for each set-up. A proven locking system for over 15 years.
- SICO's balanced construction allows easy alignment of CAM-LAM® panels.
- Trim is compatible with the SICO STARLIGHT DANCE FLOOR.
- 3-year warranty against manufacturer's defects. 10-year warranty on cam-lock mechanism.

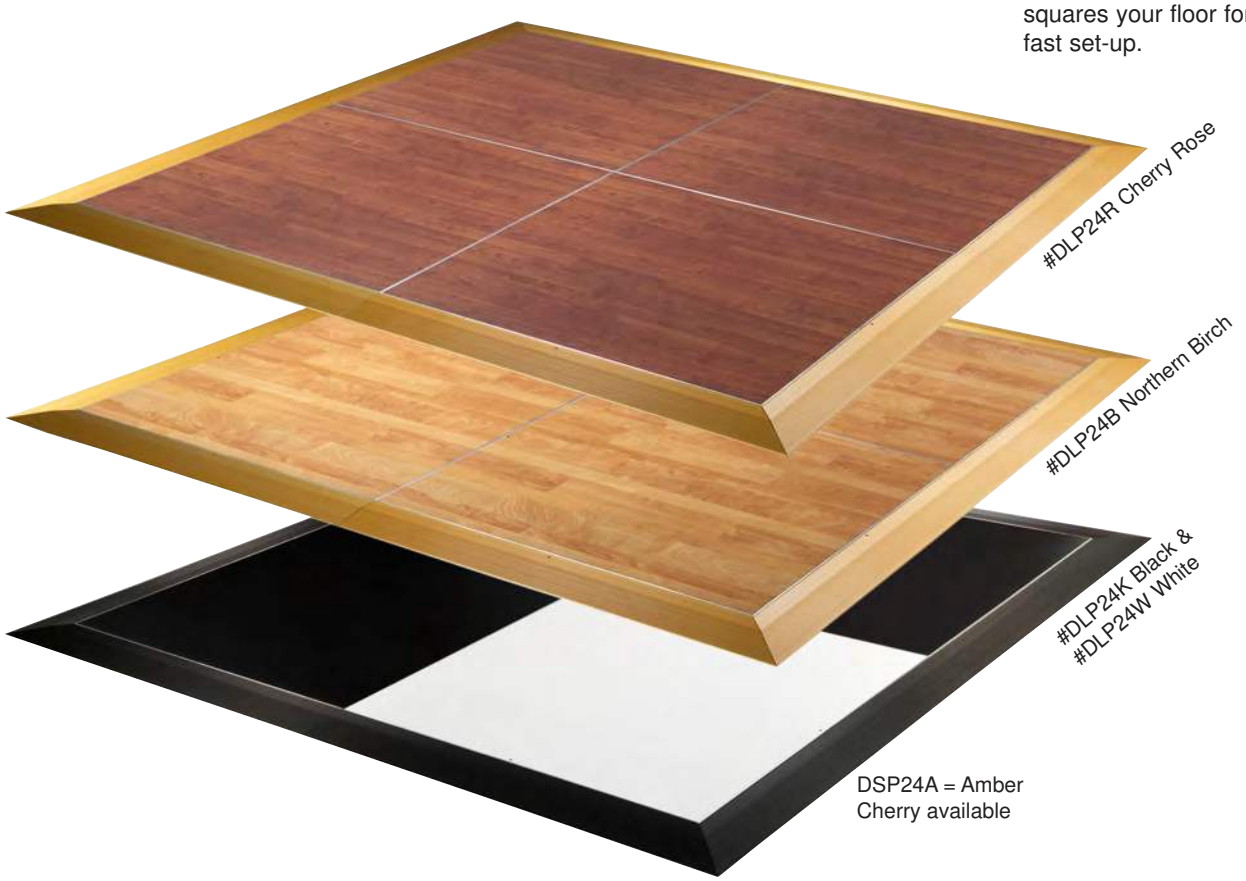

Each caddy holds 24 panels and all matching trim.

SICO EXCLUSIVE!
Balsa wood core provides a unique and lightweight design. Panels weighs only 48 lbs (22kg).

SICO EXCLUSIVE!
Self-aligning pins and the cam-lock positive locking system perfectly squares your floor for an easy and fast set-up.

DSP24A = Amber Cherry available

SICO® CAM-LOCK PARQUET DANCE FLOOR

If you like the beauty of SICO's ORIGINAL Wood Parquet Dance Floor and prefer the locking feature of the STARLIGHT II Dance Floor, the CAM-LOCK PARQUET DANCE FLOOR is ideal for you. Enjoy the elegance of real wood along with the positive cam-lock panel system.

CAM-LOCK Parquet Dance Floor has all the benefits of the original dance floor plus these unique features:

- CAM-LOCK allows you to automatically align panels and trim pieces together for a faster and more secure fit.
- A half-turn with an Allen wrench is all that is necessary to lock or unlock panels, reducing the time and labor required to lay down a dance floor.
- It's easy to assemble because there is no panel order sequence to follow.
- Panels are 3' x 3' (91cm x 91cm). No odd sizes to deal with, allowing easier set up.
- CAM-LOCK's reliable positive locking system is not dependent upon magnets or gravity to keep panels interlocked.
- Panels weigh 40 lbs. (18kg) and are shipped two per carton at 80 lbs. (36kg).
- 3-year warranty against manufacturer's defects. 10-year warranty on cam-lock mechanism.

SICO's dance floor caddy easily holds up to 25 ORIGINAL, or CAM-LOCK panels and trim.

With SICO's CAM-LOCK Parquet Floor, you can enjoy the elegance of real wood along with the security of this positive panel locking system. This system automatically aligns panels and trim pieces together for a faster and more secure fit.

SICO® STARLIGHT II INDOOR & OUTDOOR PORTABLE DANCE FLOOR

SICO's STARLIGHT II DANCE FLOOR brings the beauty of SICO's CAM-LAM® dance floor OUTSIDE. STARLIGHT II combines the beauty of wood with the permanence of laminate. Standard panel laminate options are the popular continuous planking design in Cherry Rose, and Northern Birch wood patterns, plus solid black and white colors.

- The continuous planking design provides a beautiful floor that will enhance your decor.
- Panels are 4' x 4' (122cm x 122cm), almost twice the area compared to 3' x 3' panels (91cm x 91cm). Fewer panels mean less storage space, and combined with the cam-lock, setting-up and taking down can be done in almost half the time of smaller panels.
- Starlight II has a high-density fiberglass reinforced inner core sandwiched with sheets of aluminum to provide strength and rigidity.
- The Starlight II maintenance-free surface is resistant to spilled drinks and food, and its unusually durable surface is easy to wipe clean and never needs refinishing. It's also extremely resistant to high heel dents and scuff marks.
- This revolutionary floor eliminates the warping, chipping, and fading associated with many other dance floors.
- At only ¾" thick, Starlight II offers a lower profile for easier access.
- SICO's Visi-Trim edging provides a modest 11° slope to every floor with its broad 6.25" width (159mm).
- The cam-lock's reliable positive locking system is not dependent upon magnets or gravity to keep panels interlocked, making set-up and take-down easy and convenient.
- Panels weigh 43 lbs. (19.5kg) and are shipped two per carton at 86 lbs. (39kg).
- Each caddy holds 24 panels and all matching trim.
- 3-year warranty against manufacturer's defects.
  10-year warranty on cam-lock mechanism.

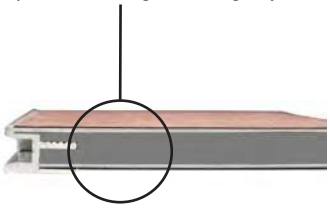

Each caddy holds 24 panels and all matching trim.

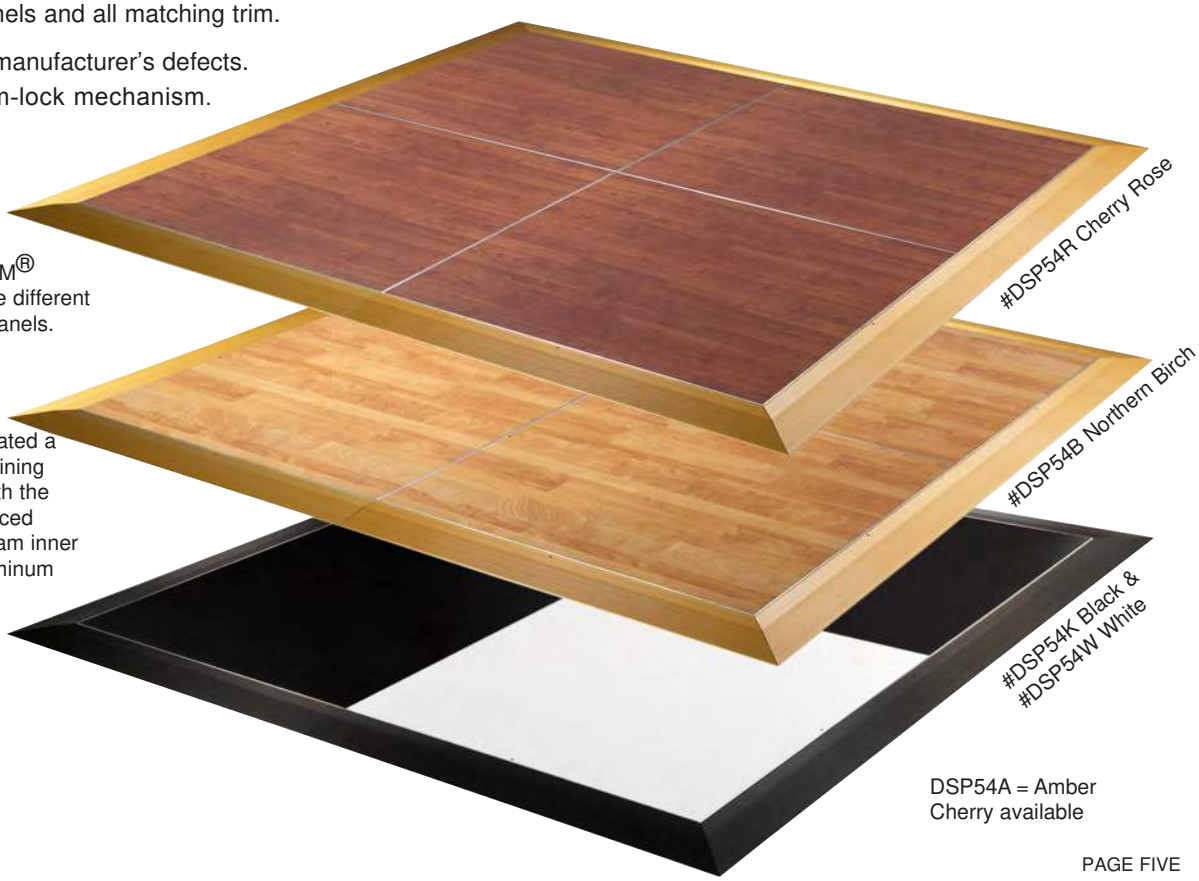

SICO EXCLUSIVE!
Self-aligning pins and the cam-lock positive locking system perfectly squares your floor for an easy and fast set-up.

SICO's STARLIGHT II and CAM-LAM® dance floors are distinguished by the different laminate colors on the back of the panels.

In the STARLIGHT II, SICO has created a unique outdoor dance floor by combining a high-pressure laminate surface with the strength and stability of a fully balanced high-density fiberglass reinforced foam inner core sandwiched with sheets of aluminum to provide strength and rigidity.

STARLIGHT II dance floors are designed for indoor & outdoor use.

DSP54A = Amber Cherry available

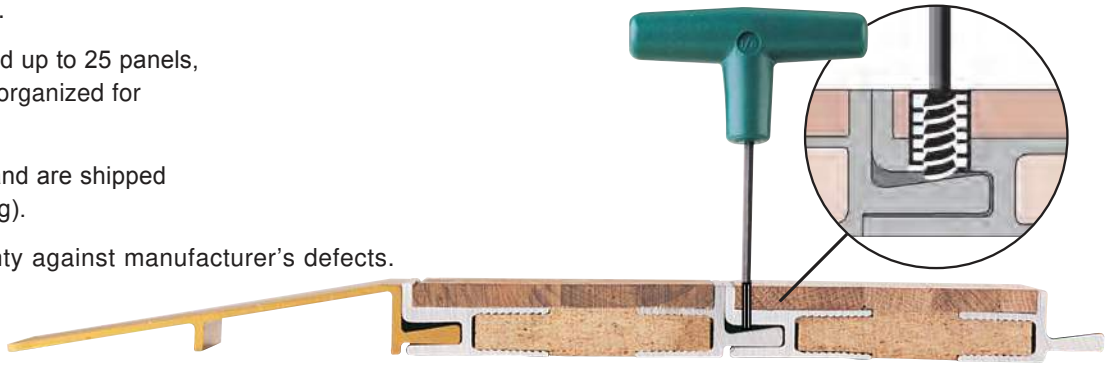

THE SICO® ORIGINAL PORTABLE DANCE FLOOR

SICO's ORIGINAL PORTABLE DANCE FLOOR is used and recommended by more hotels, clubs, and convention centers than any other portable dance floor on the market. Here's why:

- SICO's superior manufacturing process guarantees the squareness of every panel, making set-up and take-down much easier—and eliminates gaps between panels.
- SICO uses a harder T-6 aluminum metal feature strip which protects the edges of each panel, adding extra years of use and durability.
- All SICO ORIGINAL parquet panels are 3' x 3' (91cm x 91cm). No odd sizes to deal with, allowing easier set up.
- The unique helicoil insert protects and secures the set screw, allowing for longer life.
- All panels make 100% floor contact so there is no possibility of breakthrough.
- SICO's U-shaped caddies hold up to 25 panels, with slots to keep trim neatly organized for quicker installation.
- Panels weigh 40 lbs. (18kg) and are shipped two per carton at 80 lbs. (36kg).
- Protected by a 3-year warranty against manufacturer's defects.

SICO uses only the highest quality parquet. In addition, a high-grade polymer coating on the back of the panels aids in resisting moisture penetration.

SICO's Visi-Trim edging provides a modest 11° slope to every floor with its broad 5" width (13cm). In addition, the trim has a gold anodized finish that highlights the edges of the dance floor.

The Natural Oak and Heritage Oak floors are protected with a rugged polyurethane finish.

HOW MUCH DANCE FLOOR DO YOU NEED?*

* Assume that only one-third of your guests will dance, so the number of dancers shown in these graphs is only 33% of your total guests.

STARLIGHT II and CAM-LAM Dance Floor Panels
4 ft. x 4 ft. (122cm x 122cm)
