Where Design Becomes Story
TUUCI

Fabric Becomes *Art*

SOFTSCAPES BY TUUCI

Tuuci's Softscapes celebrate the beauty of outdoor living. Each pattern is designed to evoke emotion, tell stories, and shape meaningful moments with intention. Drawing from natural forms, artistic movements, and cultural landscapes, Softscapes capture the spirit of discovery and design without boundaries.

The collection features exclusive screen-printed patterns, thoughtfully arranged into six themes: Tropical, Florals, Maritime, Wildlife, Whimsical, and Abstract. Each design carries its own rhythm and personality, transforming shade into a visual narrative that reflects creativity, movement, and connection to the world around us.

Softscapes can be customized in a full spectrum of colors, with one or two tones per print, available in directional or omni-directional compositions. The prints are crafted from UV-protected, colorfast materials, retaining their vibrancy and durability season after season—resilient against sun, salt, and time.

Softscapes may be used with a single or double canopy and printed on the top or underside of the canopy. When applied to a single canopy, the design subtly reveals itself on the reverse side, creating a soft echo of the printed pattern. The extent of this effect depends on the canopy and ink colors selected, adding depth and beauty to both sides of the shade.

Bringing a sense of individuality to every setting, Softscapes invite relaxation, spark connection, and transform outdoor environments into something deeply personal and visually expressive.

TULUM

TAHITI

KAUAI

Tropical

Inspired by sun-soaked shores and lush island escapes, the Tropical Softscapes evoke the serenity of ocean breezes and the vibrancy of coastal life. Each pattern captures the effortless harmony between water, foliage, and sunlight, bringing a touch of paradise to every outdoor setting.

Florals

The Florals series celebrates nature in bloom through organic movement and delicate artistry. Soft yet expressive, these prints capture the fleeting beauty of petals in motion, transforming any space into a garden of texture and light.

Maritime

Drawing from nautical heritage and the ever-changing sea, the Maritime Softscapes reflect the calm power and rhythm of the ocean. With patterns that mirror waves, tides, and coastal forms, they bring refined tranquility to marine-inspired designs.

SAVANNA PROWL SAFARI

Wildlife

Inspired by the raw beauty of nature, the Wildlife Softscapes channel the untamed spirit of the wild through bold patterns and organic textures. Each design captures the movement and majesty of life in its natural habitat, bringing warmth, depth, and adventure to any space.

Abstract

Contemporary and versatile, the Abstract Softscapes translate motion, geometry, and texture into visual rhythm. Each design serves as a modern canvas, creating dynamic, artful expressions that elevate both relaxed and refined outdoor environments.

Design Studio

The Tuuci Design Studio transforms product specifications into vivid, client-ready renderings. Designers can explore every finish, fabric, and enhancement in real time, then export fully customized models to BIM platforms like SketchUp and Revit—bridging inspiration and implementation with precision and ease.

Within the Design Studio, Softscapes can be added under Canopy Enhancements to expand creative possibilities. Designers can select a Softscape for the interior, exterior, or both sides of the canopy, and customize each pattern in one or two colors. Every Softscape is screen-printed onto high-performance fabric, engineered to maintain its color and integrity through sun, salt, and time.

Inspired by natural forms, artistic movements, and cultural landscapes, Softscapes transform shade into art. Each pattern tells a story of movement and emotion, bringing individuality and character to every design while connecting outdoor spaces to the beauty of the world around them.
