GRASSOLER

EN · Grassoler is a leading Spanish company engaged in the manufacture of contemporary upholstered furniture, 100% made in Spain. Since its establishment in 1960 in Barcelona as a family business, we have been committed to innovation in design and offering the highest quality level in manufacturing our sofas.

Grassoler is located in Barcelona, where our facilities cover an overall area of 8.000 m² (86,000 sq.ft.) for offices and production with another 700 m² (7,500 sq.ft.) of showroom space.

The range of products offered includes contract, hospitality and residential. We have been exporting all over the world for over 40 years.

ES · La empresa Grassoler es una de las primeras firmas españolas, y la más antigua, dedicada en exclusiva al mueble tapizado, fabricado íntegramente en España. Desde su creación en 1960 en Barcelona como empresa familiar apostamos por la innovación en el diseño y por la más alta calidad en la fabricación a la hora de producir nuestros sofás.

Situada en las afueras de Barcelona, nuestras diversas instalaciones actuales disponen de una superficie global de aproximadamente 8.000 m² destinadas a oficinas y producción y un showroom de 700 m².

La gama de productos abarca desde la instalación para todo tipo de colectividades hasta el canal hogar. Grassoler opera desde hace más de 40 años exportando a todo el mundo.

ESTABLISHED IN 1960 IN BARCELONA DESDE 1960 EN BARCELONA

EN • In 1960, at the young age of 19, Jose Gras Soler established Grassoler in a small building in the center of Barcelona. A few years later, the company moved to its current location. 1964 was a banner year for Grassoler when the patented “Intelligent System®” was introduced in the market. This revolutionary modular metal frame spring system developed by Jose Gras launched Grassoler into becoming an industry leader in Spain and later throughout Europe and the rest of the world. It is well established and acknowledged as a culmination of excellence in design and ergonomics in achieving the highest level of performance and comfort, with built-in flexibility unique to the Grassoler brand.

ES • Fruto de la iniciativa de José Gras Soler, con 19 años, Grassoler, S.A. nació en 1960 como una pequeña estructura empresarial en un local del centro de Barcelona, que más tarde, en 1966 trasladó a las instalaciones actuales. El negocio empezó a crecer hacia 1964, año de lanzamiento del mayor éxito de ventas que ha tenido la empresa llamado Davis y que la catapultó en España gracias al revolucionario sistema de muelles y armazón de hierro que incorporaba, desarrollado por José Gras y patentado por Grassoler, llamado Intelligent System®, considerado un diseño que incorporaba gran ingeniería constructiva. Ha sido la culminación del binomio diseño y ergonomía que consigue el máximo descanso. Todo ello hace de un Grassoler una pieza muy especial y única.

TRADITION ALLIED WITH TECHNICS

TRADICIÓN ALIADA A LA TÉCNICA

EN · From the beginning, our philosophy has always been the search for technological innovation and advances beautifully blended with the traditional processes of handcrafted furniture.

ES · Durante 63 años nuestra filosofía siempre ha sido la permanente búsqueda de avances técnicos en los materiales y en los procesos de fabricación fusionándolos con los métodos tradicionales y artesanos de fabricación.

STEEL FRAME STRUCTURE

ESTRUCTURAS METÁLICAS

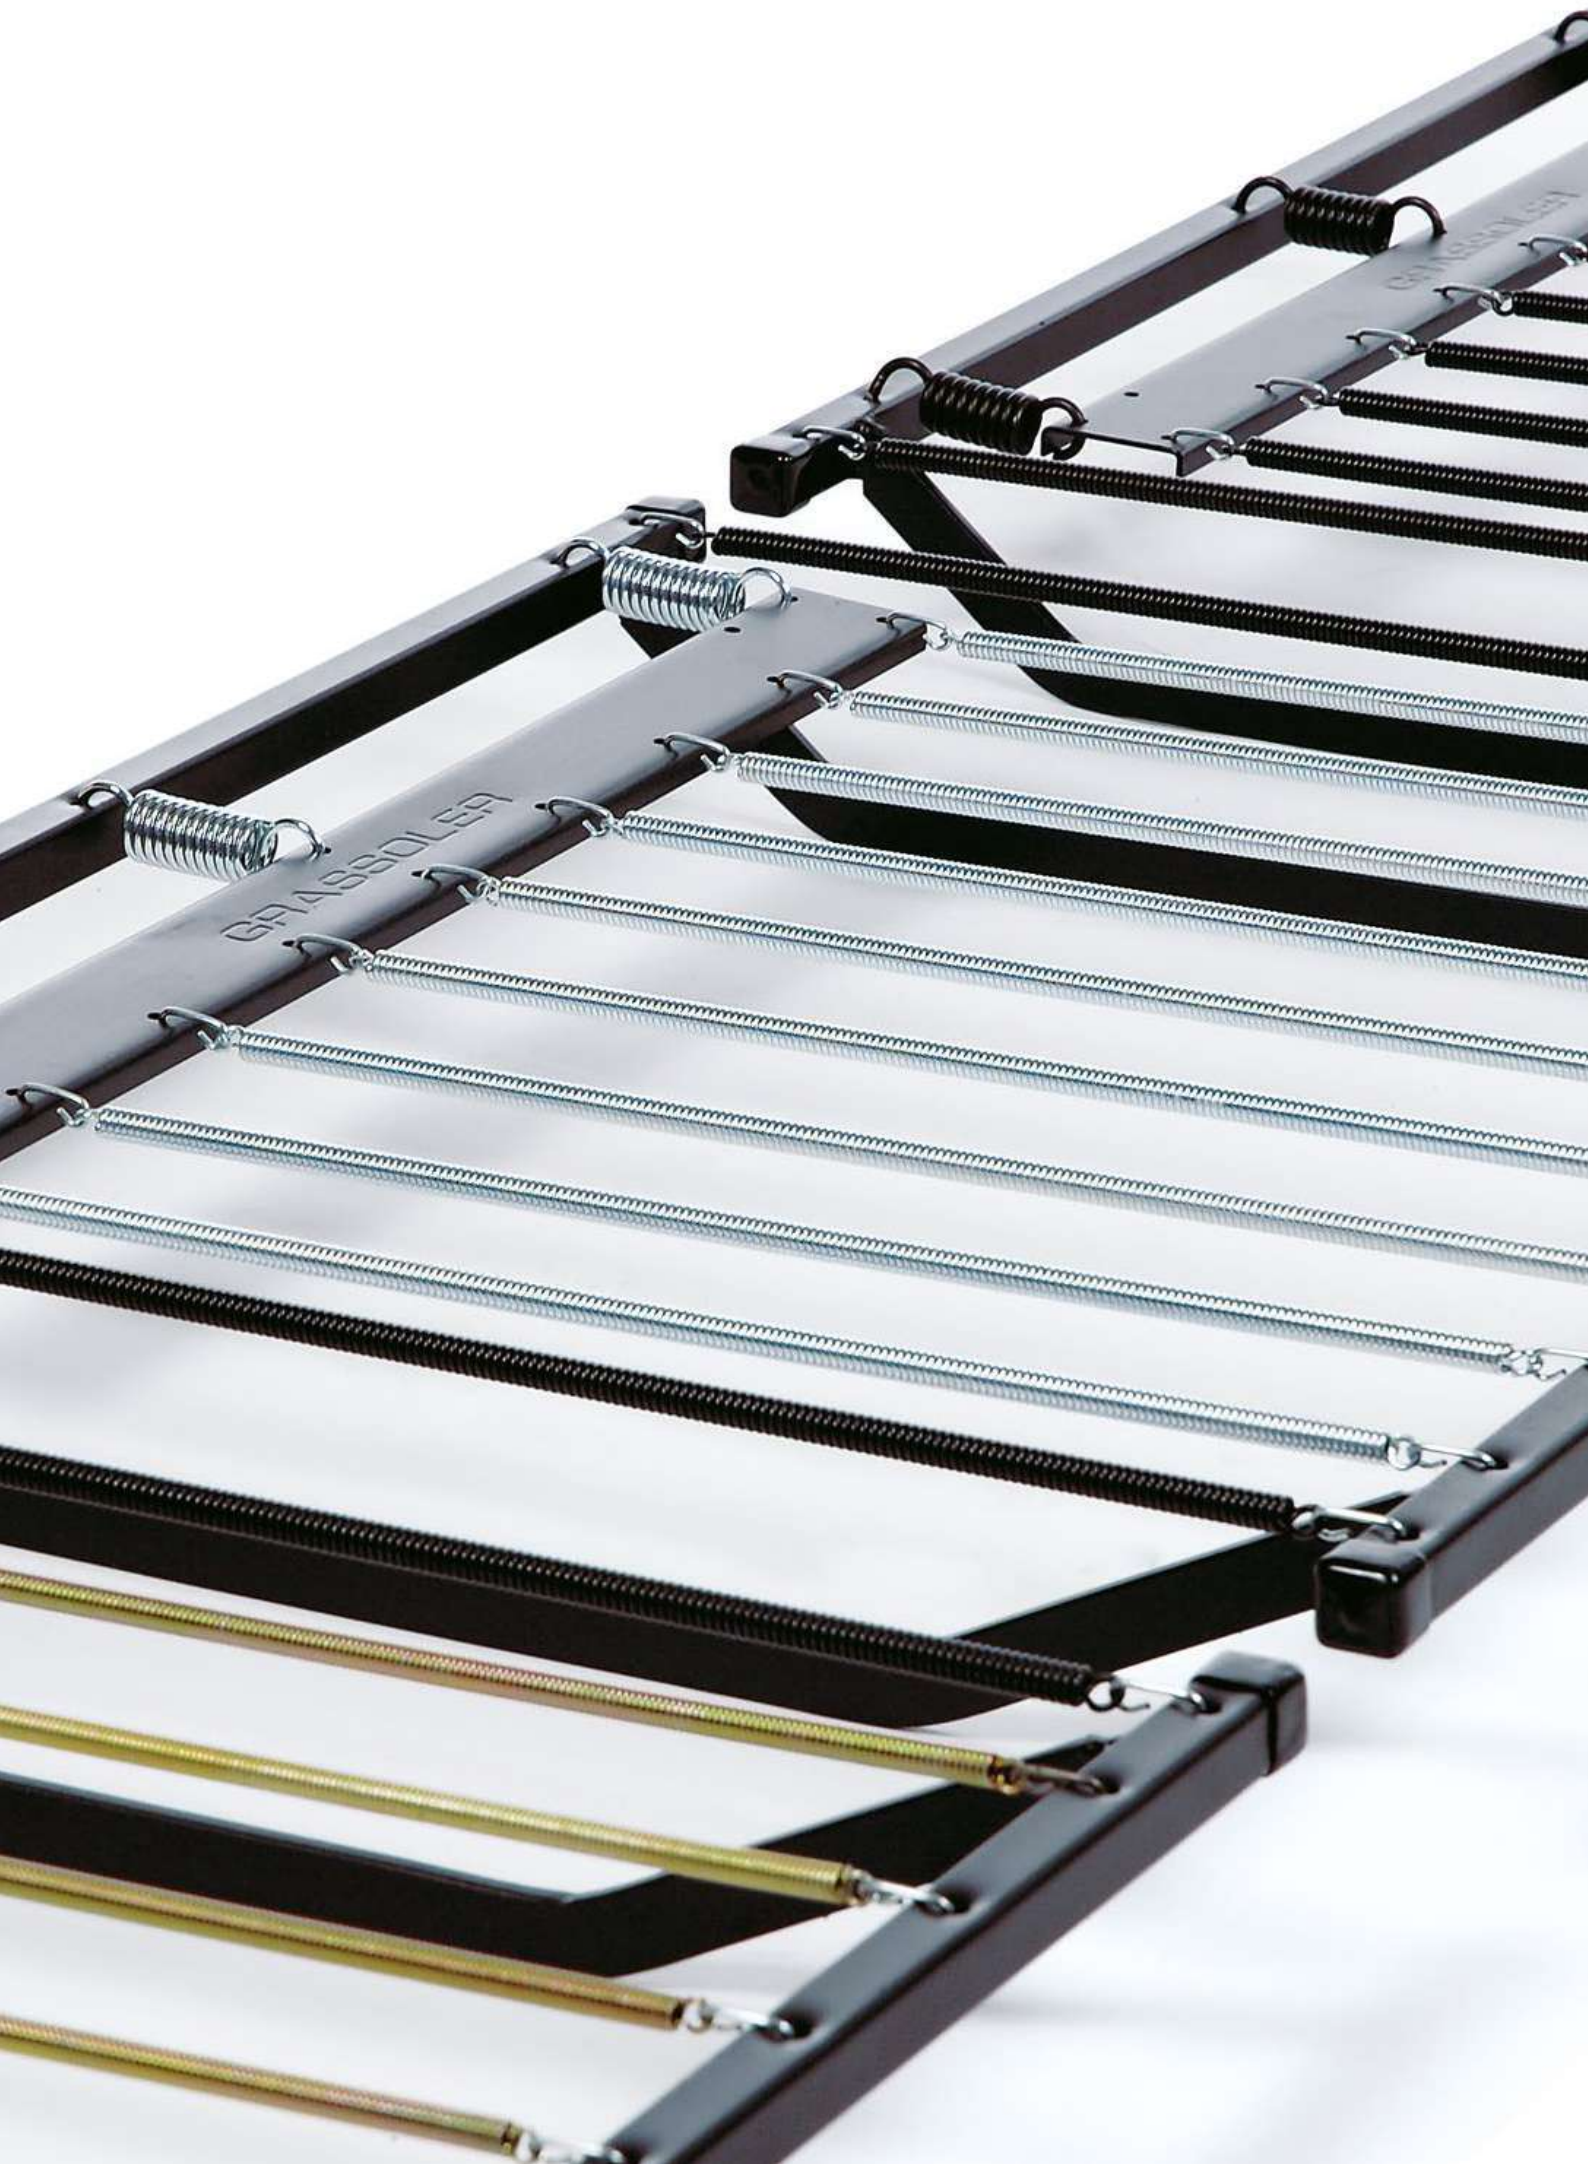

EN • Since the mid 1960's, Grassoler has been manufacturing the inside structure of our sofas with metal frames, which were developed and patented under the trade name Intelligent System®. The laminated steel provides our sofa frame structures with very high level of strength and unsurpassed durability. It makes them unique pieces, almost indestructible so that they can be enjoyed for many more years than traditional wooden frames.

ES • En Grassoler llevamos fabricando los interiores de los sofás en acero desde 1964, año en el que desarrollamos y patentamos nuestro exclusivo sistema Intelligent System®. El acero por sí mismo, además de dar gran solidez y durabilidad a los sofás, los convierten en piezas únicas. Únicas, indeformables y resistentes al paso de los años.

25 YEAR WARRANTY 25 AÑOS DE GARANTÍA

EN · Our sofas have level 5 (maximum level) UNE 11020 part 2 and UNE EN 1022-98 corresponding to severe public use. This is equivalent to a test of more than 200.000 drop cycles of 95 kg (210 lbs.) weight. As a result of the excellent material quality, we offer a 25 year warranty of the steel structure, absolutely exceptional in this market sector.

ES · Nuestros productos superan el nivel 5 (nivel máximo) de la norma UNE 11020 parte 2 y UNE EN 1022-98 correspondiente a uso público severo. Entre otras pruebas, equivale a más de 200.000 sentadas con un peso de 95 kg. Como resultado de esta excelente calidad, ofrecemos una garantía de 25 años por fabricación en aquellos modelos dotados de estructuras metálicas, algo absolutamente único.

“TAILOR MADE SUSPENSION” “SUSPENSIÓN A LA CARTA”

EN • The Intelligent System® suspension is a system developed and patented by Grassoler almost 60 years. It provides you with a “customized suspension system” meaning that you can personalize the level of firmness in the seat to your own desire. There are three different firmness options: soft, middle and firm.

ES • La suspensión Intelligent System® es un sistema desarrollado y patentado por Grassoler hace casi 60 años. Se trata de la “suspensión a la carta” que permite personalizar y adaptar la sentada eligiendo el confort individual en cada sofá, consiguiendo una mayor comodidad. Existen tres opciones posibles: suave, media o firme.

EASE OF DISASSEMBLY

TOTALMENTE DESMONTABLE

EN • You can easily assemble or disassemble the sofa seats, arms and legs without tools. By simply unscrewing the knobs with your hands and reach through the zippers in the back frame, you will find the knobs that hold the structure together.

ES • A través de unas cremalleras y palomillas en la estructura, permite montar y desmontar los módulos, los brazos y pies sin necesidad de herramientas en sencillos pasos.

REMOVABLE UPHOLSTERY COVERS

TOTALMENTE DESENFUNDABLE

EN • Our sofa covers are easily removable with a system of zippers and velcro that split the covers of the sofa into several parts. The covers can then be washed in a washing machine or taken to the dry cleaner in case the upholstery material requires dry cleaning.

ES • Nuestros sofás son fácilmente desenfundables mediante cremalleras y velcros que dividen las fundas del sofá en varias partes para lavar cómodamente en la lavadora doméstica o llevar a la tintorería en el caso de que así lo requiera la tapicería elegida.

REPLACEABLE UPHOLSTERY PARTS

RECAMBIOS DE PIEZAS

EN • This system allows you to individually replace part of the sofa that could have been damaged after use, for example: you can replace the arm or just the cover of the arm, depending if the damage is on the fabric or on the structure of the arm.

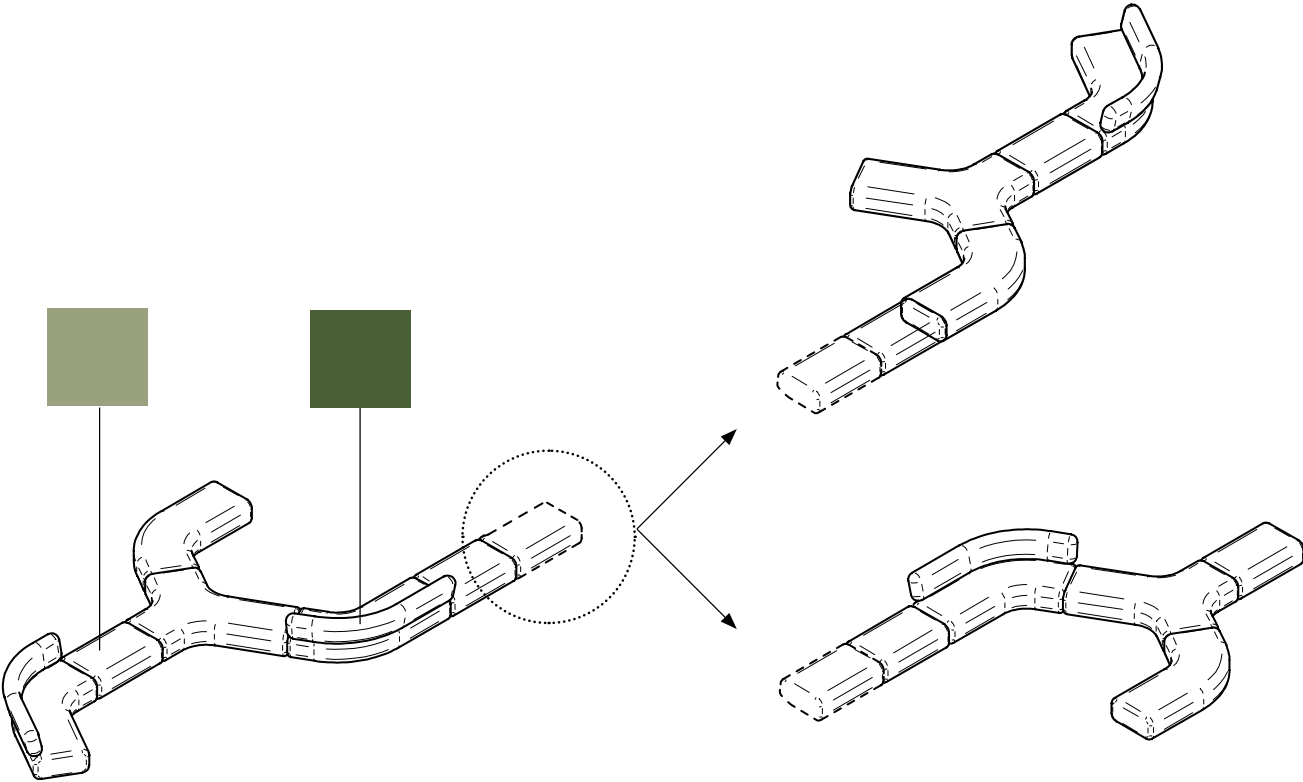

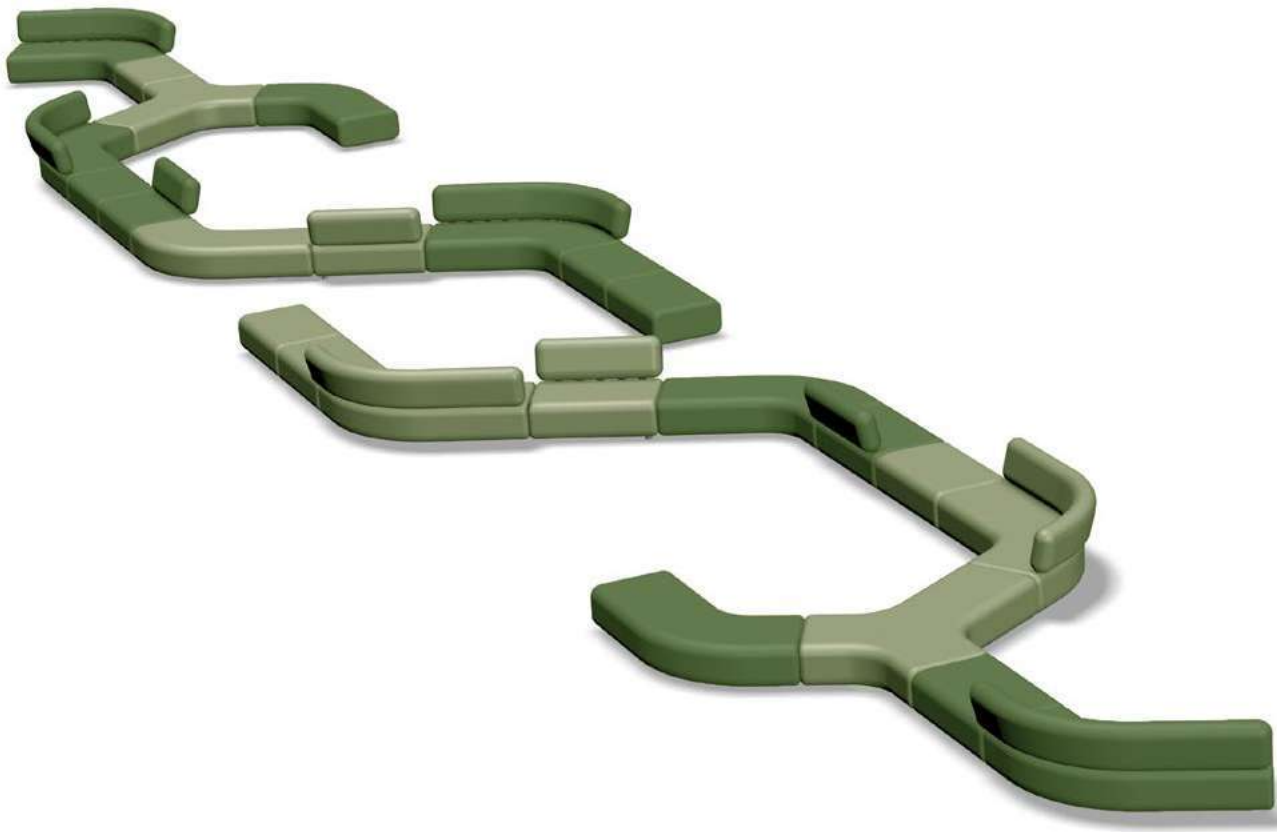

ES • Este sistema permite reemplazar individualmente partes que con el uso hayan podido ser dañadas, por ejemplo: se puede reponer el brazo o sólo la funda del brazo dependiendo si el daño está en la tela o en la estructura del brazo.
